

Community Clean-Up Day

On April 25th, 2009, employees of Capital Paving volunteered to participate in a Community Clean-Up Day in the Township of Woolwich by cleaning litter and promoting a clean and litter free environment to the Community.

Volunteers were dispersed with group leaders to clean sections of roads throughout the Elmira and St. Jacobs area. A total of 24.5km of roadsides were cleaned with 137 bags of litter filled by Capital volunteers. Capital also assisted the Township by picking up garbage bags at other locations that were generated by other volunteers. A total of 235 bags were collected and brought to the Elmira Transfer Station. The day proved to be a great success with a great turnout of volunteers and compliments received from the passing of motorists, cyclists and pedestrians.

Capital Paving Inc. is committed to the environment and being a responsible corporate citizen. The company continually gets involved in projects and events that benefits the environment and helps to promote environmental stewardship.
